DETAILED ACTION

1. Claims 22 and 24 are pending in the present application.
2. Applicant's response filed September 22, 2008 has been entered. Claims 22 and 24 have been amended. Claims 1-21 and 23 have status cancelled.

Allowable Subject Matter

3. Claims 22 and 24 are allowed.
4. The following is an examiner's statement of reasons for allowance:

In the response mailed May 20, 2008 claims 22 and 24 were noted as allowable if rewritten to overcome rejections cited under 35 USC 112 second paragraph and to include all of the limitations of any base claim and intervening claim. Applicant's response and amendment overcomes the previous prior art rejection cited under 35 USC 103(a) Gleb et al. in view of Warr, and questions raised in the after final advisory concerning lack of antecedent basis and/or indefinite language. Regarding independent method claim 22, the prior art of record fails to teach *"wherein said classification levels are obtained according to evaluation values of attribute information of each of the volumes by using an evaluation function for each application, and upper and lower limit threshold values for each of the classification levels are obtained by dividing the total amount of the volumes based on a ratio according to each of the classification levels*

provided by the policy". The limitations of independent system claim 24 parallels method claim 22; therefore it is also found allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
